

M13 MALE & FEMALE CEILING BOSS SET

299531006401 FEMALE
299531006400 MALE

KEY FEATURES

These high quality brass turned parts are finished in satin nickel.

The female boss has a tapped M6 threaded hole at the top to enable a strong connection to the ceiling.

The smaller male boss has a 2.5mm hole to allow the suspension wire with a pressed ferrule to be securely held, whilst allowing the wire to pass downwards to the clutch mechanism.

The two parts can then be screwed together utilising the M13x1 threads to create a discreet top fixing for the suspension solution.

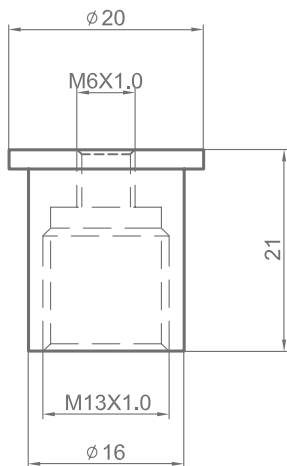

Safe working load is 18 kilos maximum

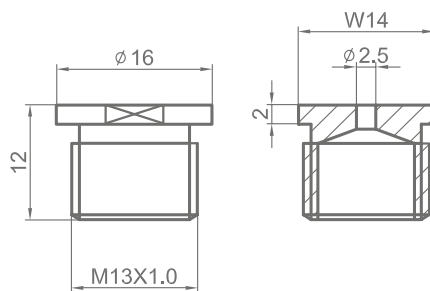

High quality brass, satin nickel finish

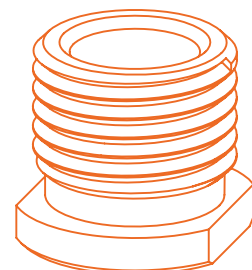

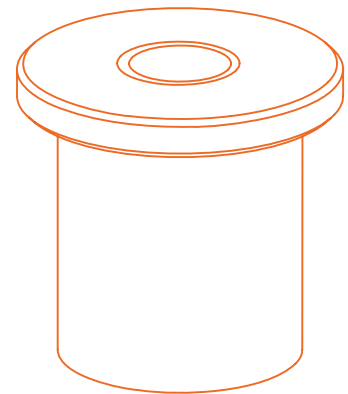

For use with 1.5mm galvanised wire
